

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION IX
2445 N. Palm Drive, Ste. 100
Signal Hill, CA 90755

NOTICE OF FEDERAL INTEREST

Issued to: Debre Family Date: 3/19/19
210 Slauson Ave.
Los Angeles, CA 90003
Location:

The U.S. Environmental Protection Agency (EPA) has been informed of a release of oil, pollutants or contaminants into the environment at the Slauson Truck explosion.

Under the authority of the National Contingency Plan (NCP), 40 CFR Part 300 and the Clean Water Act, Section 311, EPA evaluates whether responsible parties or other agencies are properly responding to such releases. This site is within the jurisdiction of EPA and the EPA On-Scene Coordinator (OSC), who is charged with coordinating, directing, and reviewing the work of responders to insure compliance with the NCP. The OSC for this site is Robert Wise.

Responsible parties generally include the operator and/or owner of the site and persons who generated or were involved in the transportation, management, or disposal of the materials at the site. If public funds are expended for a response action, responsible parties may be held liable for all government costs. Before EPA initiates a response, Potentially Responsible Parties (PRP's), where practicable, are informed of the interest of EPA and offered the opportunity to conduct the response. EPA has reason to believe that you may be a PRP for this site, and by this Notice is providing you the opportunity to conduct the response. Your intention to do so, or your declination, should be immediately conveyed to the On-Scene Coordinator (OSC). Correspondence should be directed to the OSC at the letterhead address.

If the OSC determines that the response to the release or threatened release is not being properly conducted, EPA may initiate the required response action. At this time, the following actions are considered necessary for a proper response, within the specified time frame:

1. Notify EPA by ASAP (time) on _____ (date) of intent to comply with the tasks described below.
2. Prevent further releases of oil into the storm drain.
3. Remove and properly dispose of all contaminated material at the 210 Slauson + 216 Slauson.
4. Provide a work plan including a health and safety plan to EPA by ASAP time on _____ (date). The work plan is subject to EPA approval prior to the commencement of work.
5. ~~Provide proof of compliance with 29 CFR 1910.120: HAZWOPER with the work plan.~~
- 6.) Remove all contaminated material that may pose a threat to the Waters of the U.S.
- 7.) Protect the site from offsite migration of Petroleum Due to rain.
